Cost of Attendance

The Cost of Attendance (COA) is an estimate of the total cost that an individual would incur to attend school. This includes charges posted to your student account (**direct costs**) as well as estimated costs not charged by Chamberlain University but that you may incur while attending school (**indirect costs**). Chamberlain University uses information from the Bureau of Labor and Statistics to develop averages for indirect costs like housing and food. While these averages may not exactly represent what you may spend on indirect costs, they do provide a basis on which to estimate your financial need while attending school.

The Chamberlain Cost of Attendance (COA) Includes:

- Tuition and Mandatory Fees
- Books/Course Materials/Supplies and Equipment
- Federal Student Loan Fees
- Living Expenses-Food and Housing
- Transportation
- Miscellaneous Personal Expenses
- Professional Licensure/Certification Credential (incurred while enrolled)

Chamberlain reviews the COA annually and adjusts the COA components based on institutional information and economic data.

The following allowable charges may be added to the COA within predefined caps if accompanied by requested documentation. Eligibility for additional loan funding to pay for these allowable charges depends on additional financial aid eligibility after the initial offer is determined. Students who seek an increase in their COA for any of the allowable charges below must start by discussing their financial aid options with a Chamberlain University Student Finance Advisor.

- Computer Purchase
- Program required residency and field experience fees, transportation, and lodging
- Dependent Care Expenses associated with time in school
- Disability Related Educational Expenses not covered by a third party
- Doctoral research and editing

If utilizing student loans; Chamberlain strongly encourages students to borrow only what they need for educationally related expenses.
